

Report on recent topics from South Butser Locality Patient Groups and Community Engagement Committee

Tabled at HPPG meeting 27/1/15

From LPG

1. Dementia training in progress at Bosmere and one dementia carers' support group being formed with a speaker at next meeting (and surgery merger likely). Any interest at Horndean?
2. Emsworth – enormous increase in workload over last 12 months, not enough doctors – hope to move to old hospital site next year.
3. Care Navigators (now Surgery Signposters) concern re. cost of training/facilities/room/computer and updating of database of services – possible external source of funding – any involvement at our practice? (**Action** CF to follow up links)
4. Hayling – new lease increased costs of maintenance – NHS insists on extra room so further increased costs – is legal advice available?
5. General concerns – closing of psychiatric intensive care unit at Elmleigh – now 8 beds for other levels of care and some concern over their provision; acute patients sent to West Hants or Roehampton (and some patients to Southampton)
6. Recruitment and retention of GPs

From CEC

7. Documents on progress of discharge summary problem
8. NHS Equality Delivery System document – 4 main goals –
Better Health Outcomes for All
Improved Patient Access and Experience
Empowered, Engaged and Well-supported Staff
Inclusive Leadership at all levels
18 outcomes for self-assessment, then review by patients, staff and public – comments welcome – should one of us join the panel?
9. Presentation on Co-commissioning of Primary Care – CCG applying for delegated commissioning
10. Invitation to launch of film on Transgender community

Plus disappointment about lack of reply to training programme response (CF)

Various documents had been received, including detail on Primary Care Premises (Horndean is GP owned), Patient and Public involvement – proposed way forward, Listening event during CQC inspection of QA, Co-Commissioning of Primary Care, NHS Equality Delivery System 2 and ‘Listening to the Transgender Community’ film premiere – now available to view online

Caroline has copies of each of these on file, if anyone wants more details.
